

To Legislation Committee

Re: Senate Bills 293 and 294

My name is Frank Lee, III. I am a traumatic brain injury client at Dignitas, Inc. My concerns are:

- I am unable to care for myself and I am in a wheelchair.
- I live in a group home and get help with my care because I do not always remember things
- I go to rehabilitation every week to help with walking and to strengthen my legs

I need the rehabilitation doctors to continue to help me. Keep Auto No Fault to help people like me so that they will get help like me.
